

How to install ProdiStore Utility for Download DSC

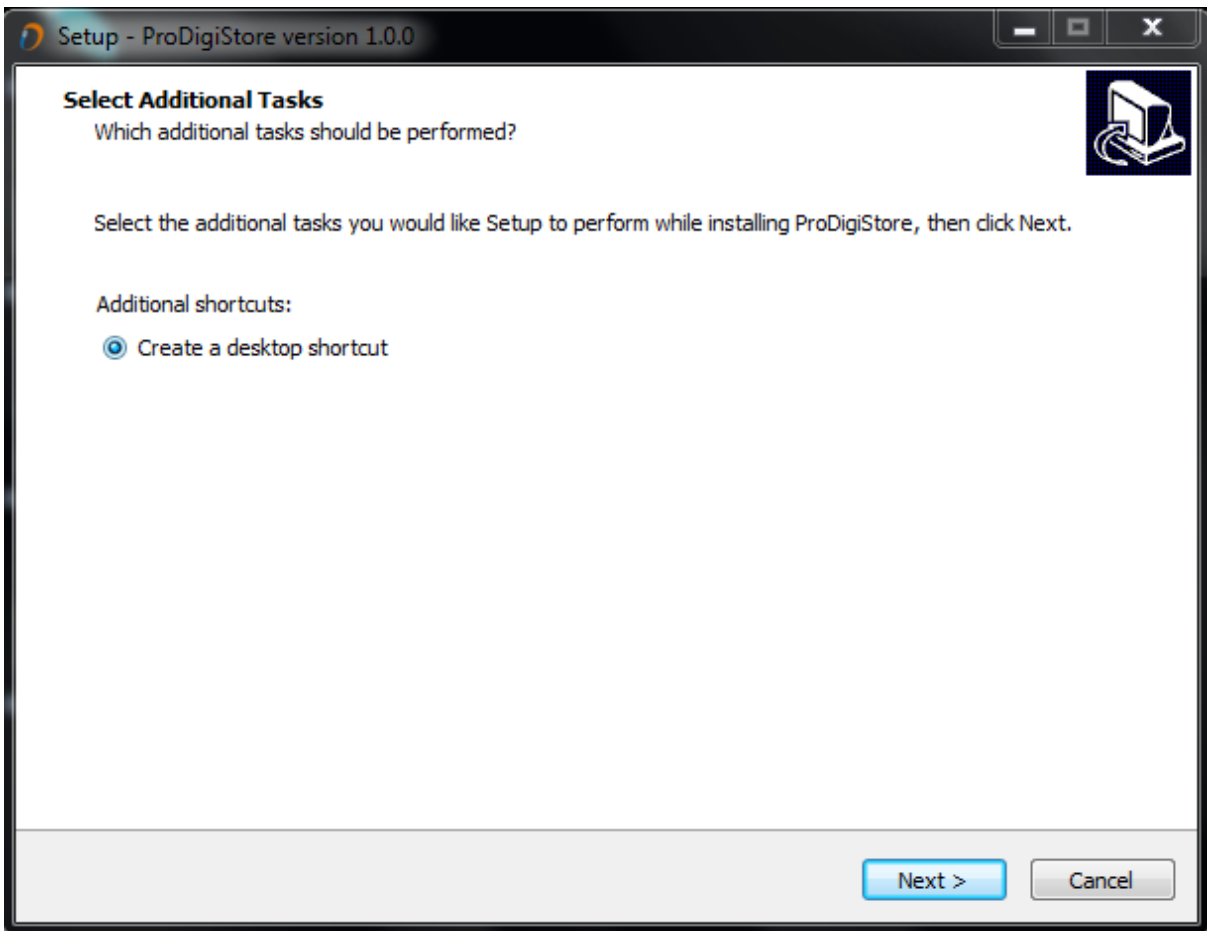

First of all you have to need visit <https://prodigisign.com/> website, and download ProdiStore that's available top of the Header .

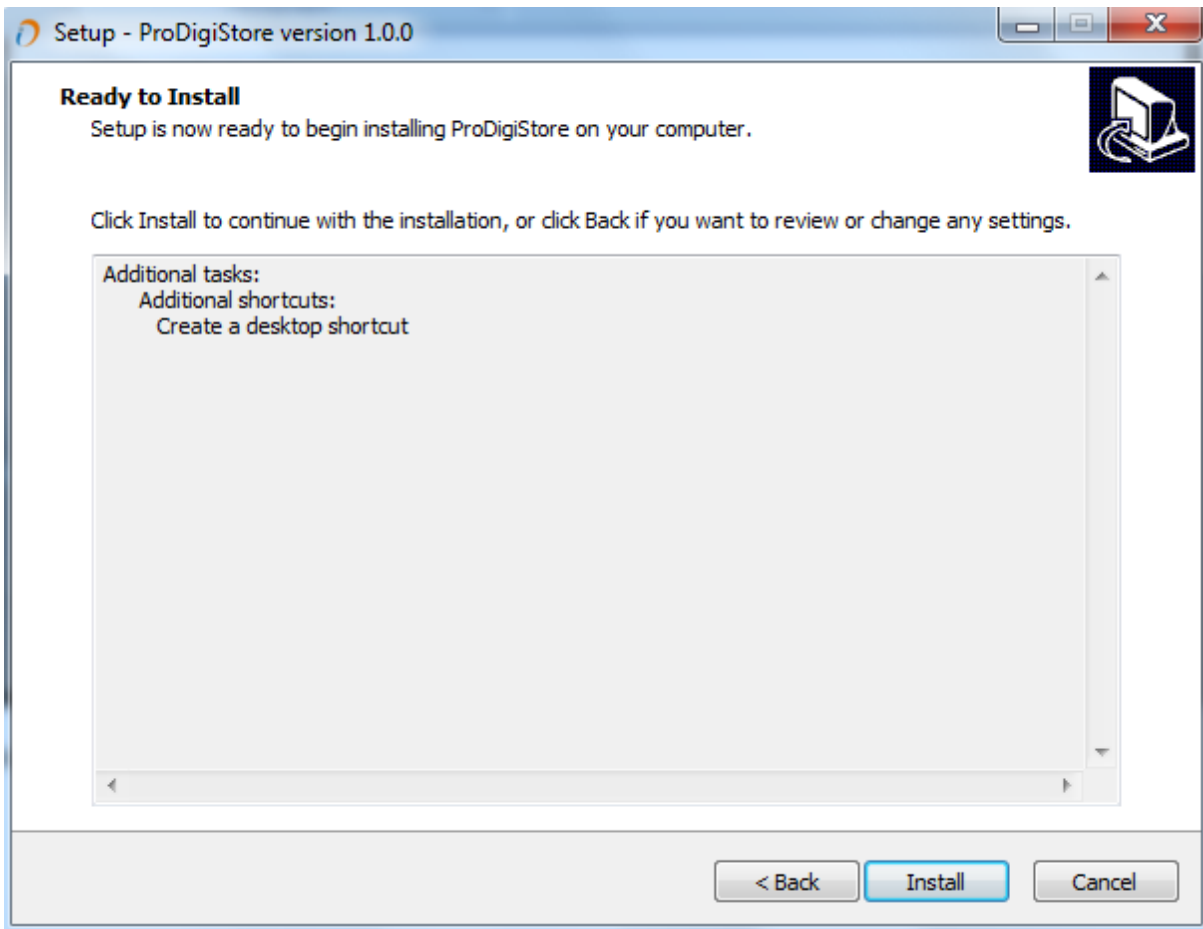

After download it will show with NEW_Download-Success_ProDiStore this name.

Now extract downloaded file.

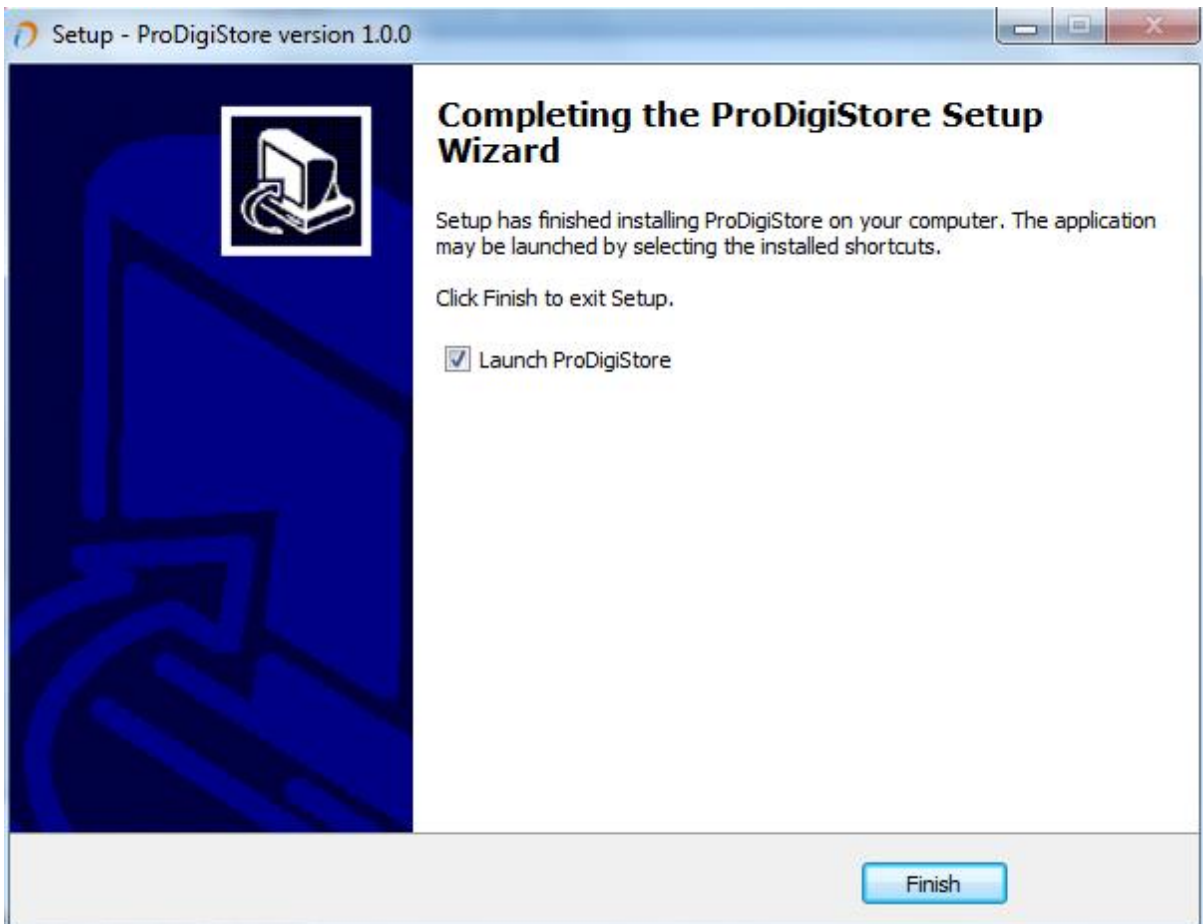

Now open extracted file and do install.

Now click on Next Button .

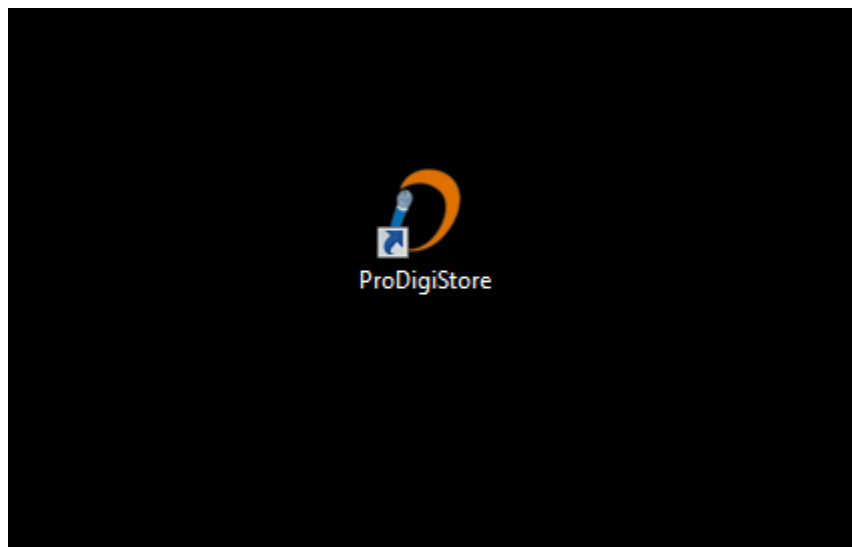

Now click on Install Button .

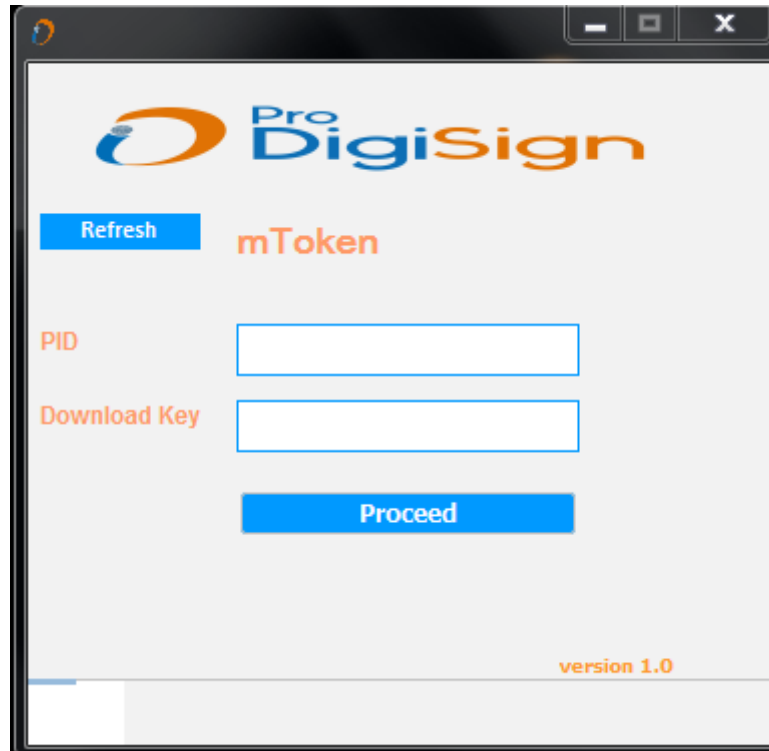

Now click on Finish Button, Now ProDigiStore utility have installed successfully in your System.

After click on Finish Button, ProDigiStore Shortcut will create on Desktop. Like this

Now insert any Dongle (Token) for download your Certificate (**Note:- without insert token it will show an error like- Insert any DSC token and run again**).

Now open ProDigiStore Utility from Desktop.

Now enter your PID and Download Key and click on Proceed Button,

After that click on download Button and Put your Token password, you DSC will download in your inserted token.

Thanks
